

LINCOLN CONSERVATION DISTRICT

2011 TREE ORDER FORM

DO YOU HAVE A NEED FOR TREES?

Have your heating bills been higher this winter?
Do you need more shade in the summer?
Do you need more privacy?
Do you need livestock protection?
Is erosion a problem?

TREES MAY BE THE SOLUTION!!!

The Lincoln Conservation District has the following services available for Lincoln County residents.

We plant windbreaks and shelterbelts with conservation grade tree seedlings. Our minimum charge is \$350.00. We also sell handplant tree seedlings.

We prepare shelterbelt plots for planting trees or to weed between tree rows and prepare grass and legume seedings with a 76" Land Pride tiller. We will also till yards, gardens and provide any other tilling needs.

We seed grasses and legumes with a 10' Great Plains grass drill for CRP acres, hay, pasture, range, and wildlife seedings.

For more information you can contact 605-360-5745 or 605-987-2624 or email us at lynda.johnson@sd.nacdnet.net. You can check out our website at <http://www.sdconservation.org/Districts/lincoln.html> for more information about these services.
