Prepared By

1. Project Overview

Project Title - Give your project a clear, descriptive name

Local Conservation Priority - What is the primary conservation issue or need this project addresses?

Project Description - Briefly describe what you plan to do, where, and why it matters locally (3–5 sentences)

2. Measurable Goal

A good goal is specific, measurable, and time bound. Example: "By December 2026, assist 10 landowners in the watershed with establishing cover crop practices on 500 acres."

Our Goal

3. Benchmarks & Timeline
