- ◆ Zigzag Goldenrod
- ◆ Calico Aster
- ◆ Purple Meadow Rue
- ◆ Culver's Root
- ◆ Plus more options!

The Woodland Edge Kit is specifically designed to create a natural transition from open areas to woodland areas. These plants will thrive in both direct sunlight as well as shade. A fantastic, natural habitat for many pollinators and insects.

Consider planting on the border between wooded and open areas or at the wooded edge of your yard to reduce maintenance around those trees that are hard to mow under.

Each kit includes 36 plants. Six plants of six different species. \$90 per kit.
