BENEFITS OF TREES

Trees help clean our air.

They remove pollutants from the atmosphere, improving air quality.

Trees provide much-needed cooling.

Trees lower surface and air temperatures by providing shade and releasing water vapor into the air through their leaves.

Trees help is save energy.

When planted properly in a yard, a tree can either shade a home or protect it from winter winds—reducing energy costs by up to 20%.

PLANT KITS

Live plants will be offered in full tray kits. Each kit will consist of 36 plants. Six plants of six different species and will be priced at \$90 each. Find examples of kits MNL has had great success within the list below. Include as many or as few as you like with your sale. If you'd like to use different names for your kits, feel free to create your own!

Plant Kits - \$110 each	
QTY:	Item:
	Backyard Prairie Kit – An attractive mix of native prairie species for your back yard. Grows well in dry to mesic soils and full sunlight. Heights ranging 36" and up.
	Short & Tidy Kit – A mix of short-statured, well behaved prairie species. Perfect for existing flowerbeds with full sun to partial shade. Up to 36" in height.
	Part-Shade Garden Kit – Designed for areas with 50% or more shade and filtered sunlight under mature trees.
	Rain Garden Kit – Mesic to moist soil species. Perfect for areas of concentrated runoff and occasional inundation.
	Monarch Special Kit – A mix of milkweed varieties to host Monarch caterpillars and fall-blooming nectar favorites for Monarch
	Rusty Patched Bumble Bee Kit – A collection of "superfood" species for our endangered Minnesota State Bee for areas with plenty of sunlight.
	Shoreline Stabilization Kit – Deep-rooted, wet-soil species to help prevent erosion along large bodies of water.
	Woodland Edge Kit – Perfect for areas with a mix of sun and shade along tree lines and at a woodland edge.
